Lester Snow CALFED Bay-Delta Program 1416 Ninth Street, Suite 1155 Sacramento, CA 95814

RE: Proposal to Restore Bay-Delta Ecosystem

Dear Mr. Snow:

I oppose all CALFED alternatives that require construction of new or enlarged dams and canals, including the Peripheral Canal and an enlarged Shasta dam.

I do support CALFED's proposed restoration objectives for Central Valley stream flows, water temperature, stream meander, flood plain management, and riparian/rivering habitat, as well as all sensitive, threatened and endangered species. These restoration objectives are needed to mitigate the impact of current water facilities.

I also oppose CALFED's proposed restoration objectives for upper watershed forest management and delta hydraulics.

Finally, I do urge CALFED to expand water efficiency, conservation, and reclamation programs to stretch our existing water supplies, instead of building new dams and canals.

Very truly yours,

Guadalupe Gamino GG/cs
